

LEMON STICKS

Product Description and Purpose

The sticks are suited for the removal of light films on the tongue and the mouth mucous membrane during oral hygiene. In addition, the citric acid stimulates salivation and thereby counteracts parotitis (inflammation of the parotid glands).

Composition

Cotton, water, glycerin, citric acid, lemon flavouring, sodium benzoate

Normative and Legal Requirements

Lemon sticks are medical products in accordance with the MDD, class I, rule 5, and comply with the requirements of the directive 93/42/EEC.

The product does not contain dangerous toxic substances according to REACH. It has CE marking and DIN EN ISO 15223-1- labels on all its packaging.

Packaging

Primary packaging: paperbag coated with polyethylene / aluminium

Secondary packaging: folding box made of cellulose

Tertiary packaging: carton made of cellulose

Storage

To be stored in a dry and dust-free environment
